

WHAT IF
EVERY BELIEVER
IN EVERY CHURCH
DID

ONE THING
EVERY DAY
TO PROTECT
LIFE?

JUST IMAGINE A WORLD WHERE...

Abortion is Not Necessary

We can give pregnant women the **courage** to give birth to their babies, **knowledge** that adoption is an option, **confidence** that they'll have the provisions they need during and post pregnancy, and the **assurance** they're not alone.

Assisted Suicide is Not Considered

Every single life is valuable. The terminally ill, mentally ill, elderly, and lonely must know their lives are precious--that they are not "better off dead." As euthanasia becomes increasingly normalized, the need to affirm life is increasingly imperative.

Want to change the world? You can do one thing every day to protect life and prevent abortion and euthanasia. Get encouragement, ideas, resources, and other tools on our website.
