# Learn more about me.

Learning about the development of a baby in its mother's womb helps us see that life is sacred. King David's words in Psalm 139, verse 13, "*For you formed my inward parts; you knitted me together in my mother's womb,*" highlight the love God exhibits for each person as He creates us in His image.

Biologically speaking, the unborn child in the womb is just like you and me! The only difference between a baby, like Chris, and each of us is size and location. We all have unique DNA and fingerprints, we all need sustenance to survive, and we are all made in God's image!

If you have ever sat looking at a newborn baby, you know in your heart and soul, he or she is a unique gift from God, and in delivering that baby into your loving arms, He is expressing His love for you, your family, and all of His creation.

Learn more about baby Chris' various life milestones with the new Anglicans For Life, "I'm Just Like You" flashcards. Children will love this interactive, fun, and educational program that teaches the sacred gift of life! For more information, visit [anglicansforlife.org/im-just-like-you](http://anglicansforlife.org/im-just-like-you).

## WEEK 5

My heart starts beating.

## WEEK 10

My fingerprint begins to form.

## WEEKS 12-14

I start to touch my face with my hands.

Scan to continue learning about Chris.
